Letter from the Chancellor

Greetings in the matchless name of our Lord and Savior Jesus Christ! With great joy I welcome you to SUM Bible College and Theological Seminary. An incredible privilege has been bestowed upon us, the call of God to ministry. It is almost too wonderful to imagine that a sovereign God desires to use us with all our weaknesses to advance the message of the Kingdom and to display His power, "But we have this treasure in earthen vessels, that the excellency of the power may be of God, and not of us" (2 Cor. 4:7, KJV). It truly is a humbling and holy calling to which we have been called.

SUM Bible College and Theological Seminary (SUM) was founded upon simple biblical truths:

- **Humanity needs a Savior.** "For all have sinned and come short of the glory of God." (Romans 3:23, KJV)
- **God sent Jesus Christ to save us from our sins.** "For God so loved the world, that He gave His only begotten Son, that whoever believes in Him shall not perish, but have eternal life." (John 3:16, KJV)
- **God placed an urgency upon the message.** "Do you not say, 'There are still four months, and then comes the harvest'? Behold, I say to you, lift up your eyes and look at the fields, for they are already white for harvest." (John 4:35, NKJV)
- **He advances the message by calling men and women for the Fivefold Ministry, who in turn train His followers.** "And He gave some as apostles, some as prophets, some as evangelists, some as pastors and teachers, for the equipping of the saints for the work of ministry, for the building up of the body of Christ." (Ephesians 4:11-12, NASB)
- **Those called to the Fivefold Ministry are not only equipped with the message, but the authority and power to carry out that message with signs following — proclamation backed by demonstration.** "And He called the twelve together, and gave them power and authority over all demons, and to cure diseases. And He sent them forth to preach the kingdom of God, and to heal the sick." (Luke 9:1-2, ASB)
- **He calls His ministers, whether they are Apostles, Prophets, Evangelists, Pastor or Teachers, to be servants of all.** "And he sat down, called the twelve, and said to them, "if anyone desires to be first, he shall be last of all and servant of all." (Mark 9:35, NKJV)

God is raising up a fearless generation: a generation committed to carry the message of the Kingdom of God to the ends of the earth. The church is in its finest hour; the flame of the Holy Spirit burns bright. His servants in the face of adversity declare, "...the gates of hell shall not prevail against it!" (Matt. 16:18, KJV). I encourage you to embrace the mission with passion!

George A. Neu, Chancellor

Mission Statement

SUM Bible College and Theological Seminary (SUM) equips indigenous leaders from America and the nations of the world by offering an affordable theological education combining academic instruction with practical hands-on ministry and personal mentorship. Our mission empowers these leaders to be instruments of change in their communities.

Foundational Principles

<i>Bible</i>	The Scriptures, both the Old and New Testaments, are verbally inspired of God and are the revelation of God to man, the infallible, authoritative rule of faith and conduct.
<i>Evangelistic Urgency</i>	The Bible teaches that humanity is lost, in danger of eternal damnation, and is in desperate need of a savior. The Bible further teaches that Jesus Christ, the Son of God, died to save humankind from their sins, a salvation which can only be obtained through faith in the Lord Jesus Christ and His finished work upon the cross and in the resurrection.
<i>Kingdom Living</i>	When God redeems people, He calls individual believers to glorify Him through love, holiness, and a life of ministry within the context of a local church. Through this we advance the Kingdom globally to reflect God's love for men and women of all ethnicities until "a great multitude which no one could number, of all nations, tribes, peoples, and tongues" worship before the throne of God (Rev. 7:9).
<i>Pentecostal</i>	Our Lord Jesus Christ has entrusted the mission of bringing the Kingdom to men and women through the power of the Holy Spirit. We believe God supplies supernatural power to accomplish His work today, including signs, wonders, healings, and deliverance from works of darkness and demonic powers.
<i>Fivefold Ministry</i>	The means by which God advances His Kingdom is by calling men and women for the Fivefold Ministry, who in turn equip the Church for ministry. "And He gave some as apostles, and some as prophets, and some as evangelists, and some as pastors and teachers, for the equipping of the saints for the work of service, to the building up of the body of Christ." (Eph. 4:11- 12)

Goals and Objectives

Principles	Institutional Goals	Objectives
<i>Bible</i>	Foster and promote a collegiate climate in which the Bible is central to every area of life.	SUM students respect the scriptures, both Old and New Testament, as the inspired word of God and as such endeavor to make it central to every area of life and faith.
<i>Evangelistic Urgency</i>	Create an atmosphere that nurtures a sense of urgency to share the Gospel with the lost.	SUM students urgently evangelize those who are lost and in desperate need of salvation that comes from Jesus. Every SUM student consistently engages in evangelistic ministry, developing a lifelong habit.
<i>Kingdom Living</i>	Create an environment that encourages and facilitates Kingdom lifestyle.	SUM students glorify God through love, holiness, and a life of ministry within the context of a local church.
<i>Pentecostal</i>	Appreciate our Evangelical-Pentecostal charismatic church heritage relational to the communities we serve.	SUM students fulfill their calling in the mission of God through the power of the Holy Spirit. They seek to trust God who supernaturally supplies power to accomplish His work today, including a variety of signs, wonders, healings, and deliverance from works of darkness and demonic powers.
<i>Fivefold Ministry</i>	Value the gifting and calling of individual believers and provide programs that nurture towards effectiveness in walking in the unique calling of being an apostle, a prophet, an evangelist, a pastor, and a teacher.	SUM students fulfill the mission of God by following their calling in the fivefold ministry to equip the church and build up the body of Christ as apostles, prophets, evangelists, pastors, and teachers.

The Four Pillars of SUM

In light of these foundational principles, SUM, as an educational ministry, exists for one purpose: To prepare men and women for the fivefold ministry so that the work of God's kingdom will move forward. SUM believes that any training program to prepare men and women for the fivefold ministry must have the following elements:

1. Academic Excellence

Faculty

SUM selects instructors for their educational expertise, sound biblical theology, concern for students, and years of proven ministry experience. Through technological innovations and the internet, the best faculty can be selected from the local church, across the nation, or around the world.

Classroom Experience

SUM faculty, under the guidance of the Holy Spirit, make the SUM classroom an exciting learning environment as they impart their knowledge and practical experience. When faculty and students from diverse ethnic and church backgrounds interact during SUM classes, a unique dynamic of learning occurs.

2. Practical Ministry

SUM believes that no school can adequately prepare men and women for front-line ministry without first exposing them to the stresses and pressures of real-life situations. Each week students feel the pain of lost humanity and learn to deal with a multitude of issues from a biblical perspective. Each student has the privilege of co-laboring with SUM faculty, local pastors, and ministries, which are directly impacting our communities with the Gospel. Each partnering site offers evangelistic opportunities unique to their Visionary Leader's distinctives.

Practicum

Students complete two Practicum per trimester. Practicums are designed by the partnering site's leadership team to provide real ministry experience for the students. Students complete a daily Prayer Journal and assignments designed to encourage students to reflect upon their experiences in each practicum and integrate their academic coursework with those experiences. The leader for each Practicum submits an evaluation for each student per trimester.

Internship

Third-year students (seniors) complete a capstone project highlighting their ministry experiences.

Evangelism Conference and Outreach (ECO)

All first and second-year students are required to participate in SUM's annual Evangelism Conference and Outreach (ECO) held in a major U.S. city for U.S. students and livestreamed for international students coinciding with local outreaches for international sites. The Evangelism Conference and Outreach serves as SUM's annual gathering.

Summer Mission

Summer mission trips can be taken for Practicum credit upon approval.

Special Evangelistic Events

Each year, SUM students across the nation host and/or participate in several evangelistic outreaches. Students gain practical experience as they plan, organize, and strategize for each evangelistic event. These events attract thousands and give SUM students an excellent opportunity to share the Gospel.

3. Personal Mentorship

Mentors

Each student at SUM is assigned a personal mentor. The relationship between the mentor and student is built upon mutual trust and respect. A mentor's role is to encourage and to hold students accountable in the areas of academics, spiritual development, physical fitness and diet, relationships, financial integrity, and personal development. A strong mentor is vital in helping a student develop the disciplines for life-long ministry.

Spiritual Formation

The culture at SUM is designed to promote the spiritual and social development of our students. Times of community worship and prayer are scheduled during the week, and at mid-day, Monday through Wednesday, spiritual growth is further enhanced during chapel service. Students enter into a dynamic time of contemporary praise and worship, preaching, personal ministry, and prayer. Guest lecturers are selected for their commitment to God's Word, yielding to the Holy Spirit, and their years of proven ministry experience. Each student is encouraged to have a consistent devotional life including fasting, prayer, and Bible study.

Health and Fitness Program

Only two out of every twenty ministers retire from ministry. A primary cause is their lack of oversight in personal health is diet and exercise.¹ Wellness is a combination of physical, emotional, and spiritual well-being. SUM students learn to honor God in body, mind, and Spirit through the Health and Fitness Program. Each full-time student in the BA degree program is to complete 10 hours of Physical Fitness per trimester, or three 20-minute workouts per week.

Spiritual Emphasis/Campus Days

During Spiritual Emphasis, participants are challenged to greater intimacy with Christ through fasting, prayer, worship, and the proclamation of the Gospel. Spiritual Emphasis is also SUM's traditional preview Campus Days. During this time prospective students experience the life of an SUM student through classroom visits, evangelistic opportunities, and chapel.

4. Affordable Education

SUM's tuition and costs rank among the lowest among accredited private Bible colleges in America. Full-time students who are also working part-time can graduate debt-free with a B.A. degree after three years. This goal enables the student to enter ministry without the burden of educational debt.

SUM brings theological education to communities across the nation by offering students the finest education at the lowest possible cost. Our goal is to have every student graduate with little to no college

debt, allowing them to immediately enter ministry upon graduation. For this reason, SUM is committed to assisting students to fulfill their financial obligations while attending the College.

Our innovative Donation Based Grant is one way SUM students can achieve the goal of graduating debt free. By partnering with SUM missionally, grant recipients help expand our base of donors. To be eligible for this grant, students must agree to not accept any student loans while in the program and may not have a prior balance with SUM. If eligible, students can qualify for the grant by completing all of the following: 1) attracting 20 donors to give \$10 per month to support the expansion of our educational programs to students worldwide, 2) recommend SUM to at least one potential student each school year, and 3) personally donate \$200 per month to expand the availability of this donation-based grant worldwide.

Statement of Faith

This Statement of Faith is intended simply as a basis for belief, fellowship, and cooperation among us. The phraseology employed in this statement is not inspired, but the truth set forth is held to be essential to a truly Pentecostal ministry. No claim is made that it contains all biblical truth, only that it covers our need for these essential doctrines.

1. The Inspiration of Scripture

We believe that the Scriptures, both the Old and New Testaments, are verbally inspired by God and are the revelation of God to man, the infallible, authoritative rule of faith and conduct. Divine inspiration extends equally and fully to all parts of the original writings, ensuring their entire trustworthiness (2 Timothy 3:15-17; 2 Peter 1:21).

2. The Eternal Godhead

We believe in the unity of the one true and living God who is the eternal, self-existent One, and has revealed Himself as one being in three persons: Father, Son, and the Holy Spirit (Matthew 3:16-17; 28:19).

God the Father

We believe in God the Father, the first person of the triune Godhead, who exists eternally as the Creator of heaven and earth, the Giver of the Law, to whom all things will be subjected, so that He may be all in all (Genesis 1:1; Deuteronomy 6:4; 1 Corinthians 15:28).

The Lord Jesus Christ

We believe in the Lord Jesus Christ, the second person of the triune Godhead, who was and is the eternal Son of God; that He became incarnate by the Holy Spirit and was born of the virgin Mary. We believe in His sinless life, miraculous ministry, substitutionary atoning death, bodily resurrection, triumphant ascension, and abiding intercession (Isaiah 7:14; Hebrews 7:25-26; 1 Peter 2:22; Acts 1:9; 2:22; 10:38; 1 Corinthians 15:4; 2 Corinthians 5:21).

The Holy Spirit

We believe in the Holy Spirit, the third person of the triune Godhead, who proceeds from the Father and the Son, and is ever present and active in the work of convicting and regenerating the sinner, and sanctifying the believer into all truth (John 14:26; 16:8-11; 1 Peter 1:2; Romans 8:14-16).

3. The Fall of Man

We believe that humankind was created good and upright. However, voluntary transgression resulted in their alienation from God, thereby incurring not only physical death but spiritual death, which is separation from God (Genesis 1:16-27; 2:17; 3:6; Romans 5:12-19).

4. The Salvation of Man

We believe in salvation through faith in Christ, who died for our sins, was buried, and was raised from the dead on the third day. By His atoning blood, salvation has been provided for all humanity through the sacrifice of Christ upon the cross. This experience is also known as the new birth and is an instantaneous and complete operation of the Holy Spirit whereupon the believing sinner is regenerated, justified, and adopted into the family of God, becomes a new creation in Christ Jesus, and heir of eternal life (John 3:5-6; Romans 10:8-15; Titus 2:11, 3:4-7; 1 John 5:1).

5. Divine Healing

We believe that deliverance from sickness is provided in the atonement and is the privilege of all believers (Isaiah 53:4-5; Matthew 8:16-17; James 5:14-16).

6. The Church and its Mission

We believe that the church is the body of Christ and the habitation of God through the Spirit, witnesses to the presence of the kingdom of God in the present world, and universally includes all who are born again (Ephesians 1:22-23; 2:22; Romans 14:17-18; 1 Corinthians 4:20).

We believe that the mission of the church is to (1) proclaim the good news of salvation to all humankind, (2) build up and train believers for spiritual ministry, (3) praise the Lord through worship, and (4) demonstrate Christian compassion to all who suffer (Matthew 28:19-20; 10:42; Ephesians 4:11-13).

7. The Ordinances of the Church

We believe that baptism in water by immersion is expected of all who have repented and believed. In so doing they declare to the world that they have died with Christ and been raised with Him to walk in newness of life (Matthew 28:19; Acts 10:47-48; Romans 6:4).

We believe that the Lord's Supper is a proclamation of the suffering and death of our Lord Jesus Christ, to be shared by all believers until the Lord returns (Luke 22:14-20; 1 Corinthians 11:20-34).

8. Sanctification

We believe that sanctification is an act of separation from that which is evil, and of dedication unto God. In experience, it is both instantaneous and progressive. It is produced in the life of the believer by his appropriation of the power of Christ's blood and risen life through the person of the Holy Spirit. He draws the believer's attention to Christ, teaches him through the Word and produces the character of Christ within him (Romans 6:1-11; 8:1-2,13; 12:1-2; Galatians 2:20; Hebrews 10:10, 14).

9. Baptism in the Holy Spirit

We believe that the baptism in the Holy Spirit is the bestowing of the believer with power for life and service for Christ. This experience is distinct from and subsequent to the new birth, is received by faith, and is accompanied by the manifestation of speaking in tongues as the Spirit gives utterance as the initial evidence (Luke 24:49; Acts 1:8; 2:1-4; 8:15-19; 11:14-17; 19:1-7).

10. The Gifts of the Holy Spirit

We believe in the present-day operation of the nine supernatural gifts of the Holy Spirit (1 Corinthians 12) and the ministry gifts of Christ (Ephesians 4:11-13) for the edification and expansion of the church.

11. The End of Time

We believe in the premillennial, imminent, and personal return of our Lord Jesus Christ to gather His people unto Himself. Having this blessed hope and earnest expectation, we purify ourselves, even as He is pure, so that we may be ready to meet Him when He comes (John 14:1-3; Titus 2:13; 1 Thessalonians 4:15-17; 1 John 3:2-3; Revelation 20:1-6).

We believe in the bodily resurrection of all humanity, the everlasting conscious bliss of all who truly believe in our Lord Jesus Christ, and that everlasting conscious punishment is the portion of all whose names are not written in the Book of Life (John 5:28-29; 1 Corinthians 15:22-24; Revelation 20:10-15).

Diversity Statement

SUM Bible College & Theological Seminary (SUM) approaches diversity from a biblical perspective, upholding the belief that all people, without exception, are created in the image of God, possessing inherent worth and demonstrating His boundless creativity and love. Guided by the institutional mission and Statement of Faith and committed to the diverse voices of our academic and spiritual community, we at SUM strive to be a communal witness of God's ministry of reconciliation as we live, learn, and labor together in love, pursuing inclusion, justice, and reconciliation.

We believe that all people bear the image of God (Gen. 1:27; 9:6; James 3:9). We also believe that all humankind is marred by sin, but that Christ came to establish a ministry of reconciliation, culminating in His death and resurrection (1 John 2:2; John 3:16). SUM seeks to foster reconciliation with God and each other in the global setting as we practice His command to love our neighbors as ourselves (Matt. 19:19; Mark 12:31, Luke 10:27). In every facet of the institution, we embrace individuals of different distinctives, including but not limited to culture, race, ethnicity, gender, socio-economic status, religion, and ability. In following Christ's example, we seek to preserve the dignity and worth of every individual, and to fulfill the biblical charge to reach all peoples. Therefore, we must submit to Christ and love one another as we appreciate individual uniqueness while pursuing the unity for which Jesus prayed and to which we are called (John 17:21).

Biblical Foundations

- **Matthew 28:19-20 – The Great Commission:** “Therefore go and make disciples of all nations, baptizing them in the name of the Father and of the Son and of the Holy Spirit, and teaching them to obey everything I have commanded you” (NIV).
- **Matthew 22:37-39 – The Two Greatest Commandments:** Jesus replied: “Love the Lord your God with all your heart and with all your soul and with all your mind. This is the first and greatest commandment. And the second is like it: Love your neighbor as yourself” (NIV).

Truth

We believe that diversity can only be properly understood in light of God's revelation to humankind through the Bible (John 14:6; 2 Tim. 3:16-17). The Scriptures, both the Old and New Testaments, are

verbally inspired by God and are the revelation of God to humanity, the infallible authoritative rule of faith and conduct (2 Tim. 3:16).

Love

We affirm an approach to diversity anchored in love - God's love for all people (John 3:16) and His command to love Him and one another (Matt. 22:37-40). This love begins with God's creation of humankind in His image, bearing aspects of His character and possessing inherent dignity and worth (Gen. 1:27). His love is offered to all human beings who, by their very nature, are inclined to violate God's desires (Rom. 3:23). God's love transcends human differences, confronting the effects of sin within individuals, families, groups, cultures, and nations (1 Kings 8:46-50; Rom. 6:23; I John 1:8-2:2). This love does not ignore, deny, or incite prejudice, exploitation, or injustice (John 4:9-10), but calls all to repentance, hope, and reconciliation with God and each other (Matt. 4:17; Acts 17:30, 26:20; Eph. 2:14-18; Rom. 5:10-11; 2 Cor. 5:18-21).

Our Commitment

We are committed to diversity in the following areas:

College Community

- the success of our staff, faculty, and students achieved through equitable opportunities and access,
- promoting an understanding of the complexity of human identity that ultimately leads to a deeper sense of unity,
- charitable intercultural engagement that includes Christ-like interaction with individuals from across the globe,
- developing tangible experiences of diversity in our student life, academic curriculum, spiritual life, and greater campus community,
- demonstrating eschatological hope by recruiting students, and hiring faculty, staff, and administration from people of all distinctives, inclusive of diverse cultural, ethnic, gender, socio- economic backgrounds, and the differently abled.

Academics

- engaging in civil dialogue between individuals or within various group perspectives,
- valuing and celebrating difference by participating in mutual learning in safe environments,
- recruiting, supporting, and retaining faculty who integrate intercultural perspectives and other diversity issues into their curriculum and research.

SUM Faculty

- SUM has a diverse student body both nationally and internationally, and it is the goal of SUM that our faculty will be similarly diverse. It is the policy of SUM to be an equal opportunity employer regarding all hiring for the College. It is also the policy of SUM to provide highly qualified faculty in terms of scholarship, training, as well as teaching ability. SUM will seek out qualified and diverse faculty that are in full agreement with the Mission and Foundational Principles of the Institution as published in the SUM Catalog.

Co-curricular

- restoring human dignity to the marginalized through the promotion of equitable systems while denouncing individual/systemic practices that dehumanize,
- building sustainable structures for equity and inclusion monitored by assessable metrics,
- developing, educating, and training global leaders to practice justice and reconciliation in the Church, the workplace, and the world.

For further information, see the institution's theological position paper: SUM Diversity, Equity, and Inclusion Statement (DEI). History

Our Founder

Chancellor George Neau, the founder of SUM, overcame difficult, tragic experiences in his youth and responded to the call of redemption as a young adult. Fully engaged in his faith, he began to pioneer a church in a disadvantaged area of Baton Rouge, LA, observing a fact that would transform his future and later provide educational opportunities for thousands of people across the globe. In the 1987 community of Baton Rouge, Chancellor Neau watched urban leaders successfully lead their congregations with vision and transform neighborhoods, but they lacked the necessary theological education.

To meet this need, Chancellor Neau pursued a vision centered around a combination of Academic Excellence, Practical Ministry Training, and Personal Mentorship, all at an affordable rate. He launched SUM Bible College in his living room in 1992 and established the initial administrative team. As the student body grew, SUM acquired buildings and property, renovating them to provide student housing, classrooms, and office space.

Timeline

SUM Launches in New Orleans – 1993

By the Fall of 1993, a 17,000 sq. ft. facility was purchased and renovated by volunteers. The same year, a team of visionaries came together to make the dream possible: George Neau, President; Anthony Freeman, Student Life; Theodore Hughes, Recruitment; Joan Millar and Richard Miller, Academics; Wade Southerland, Student Ministry; Wood Gunnels, Business Office. This team launched the college's first classes in August of 1993 with four students.

SUM Launches in Oakland – 2000

While launching a second campus in Oakland, Chancellor Neau received a call concerning a church property that was being repossessed. SUM successfully purchased the four and one-half acre site with two warehouse buildings totaling 35,000 sq. ft., and an adjoining seven, two-bedroom apartment complex for \$940,000.

The facilities were completed in phases: faculty and married student housing completed with a capacity

of seven, two-bedroom apartments (2000); completion of the 15,000 sq. ft. educational facility with a capacity for 300 students (2001); completion of the 10,000 sq. ft. men's and women's student housing for 80 students (2002); completion of administrative building housing the offices, bookstore, and chapel (2003). Early in the midst of these projects, the Oakland campus opened for classes with an enrollment of four students in the Fall of 2000.

Completion of Six Million Dollar Capital Campaign – 2004

With few California relationships to rely upon, Chancellor Neau entered into a four million-dollar building campaign that grew to a need of over six million dollars to bring the project to completion. As he stated, "I shared the SUM vision with anyone who would hold still long enough to hear the dream - from businessmen, to pastors, to church groups, to various individuals." By the grace of God, two years later SUM had acquired all the necessary funds to dedicate the Oakland campus debt-free.

Hurricane Katrina Devastates New Orleans – 2005

SUM could never have realized the significant role it would play as a provider of Hurricane Relief and Recovery when Hurricane Katrina hit the Gulf States on August 29, 2005. Within days after the hurricane, an amazing grassroots movement began to develop throughout the United States as hundreds of churches mobilized their members to respond to the people of the gulf coast. SUM raised over 5 million dollars in goods and assembled an army of over 2,500 volunteers to address the devastation. SUM's attempt to re-launch the New Orleans campus in 2006 was short-lived as the devastation of the various communities proved to be too much to overcome. All SUM operations were permanently relocated to the Oakland campus.

Cohort Model Launches – 2008

With SUM reeling from the effects of Hurricane Katrina, Chancellor Neau went into a season of prayer and fasting, resulting in an innovative approach to SUM's academic experience, the cohort model: find visionary leaders and surround them with a cohort of 12 students to mentor for three years while earning their B.A. Degree. Hence, the Global Leadership Initiative was born.

SUM Goes International – 2011

As the Cohort model of education proved to be highly successful in America, it was time to test the waters internationally. In 2011, SUM launched its first International Cohort in Chennai, India with 10 students.

SUM Celebrates 20 Years of Ministry – 2012

With great excitement, key leadership from across America came together to celebrate SUM Bible College and Theological Seminary on its 20th Anniversary of preparing men and women for ministry. The celebration commenced by honoring the five original founders of the College, hosted by Pastor and Visionary Leader Shane Warren. Joan Millar, Anthony Freeman, Richard Miller, Wade Southerland, and Chancellor George Neau were all presented Founders Awards in honor of dedicating 15 years of their lives to raising up SUM, now over 300 students strong and spanning the globe. The General Session was capped with the inspirational and timely preaching of Dr. George O. Wood, General Superintendent of the Assemblies of God.

Institution Format

SUM Bible College & Theological Seminary is a leading innovative College and Seminary of Hubs, Cohorts and partnering sites committed to the continual broadcasting of accredited theological education fitting and faithful to the Pentecostal tradition.

Over the past few decades, Christian colleges in America have experienced a decline in graduates who are willing to answer God's call to fulfill the Great Commission. Why have some Christian educational institutions failed to prepare graduates for ministry? What can we do about it?

PROBLEM	SOLUTION
Passionless: Many of our finest church disciples leave for college or seminary with a passion for Christ, the Church, and ministry, but graduate passionless.	Intensity: SUM students are rigorously challenged in the classroom, streets, and churches, producing passionate students ready to serve Christ.
Distracted: Men and women who have heard the call to ministry become distracted with other non-ministerial professional degrees, sidelining their original call to ministry.	Unified: SUM solely focuses on raising up apostolic, prophetic, evangelistic, pastoral, and teaching leaders.
Specialized Faculty: Professors teach theories of leadership without requisite practical experience.	Well-Rounded Faculty: SUM hires faculty with both educational expertise and proven ministry experience.
Inward-Focused: Many Bible college students graduate without the skills or zeal to share the Christian faith with the lost.	Outward-Focused: Weekly church-based practicums and yearly mission trips develop graduates who are skillful and zealous to share the gospel of Jesus Christ with the lost world.
Unbalanced: Some institutions impart knowledge solely through lectures and books, neglecting the miraculous operation of the Holy Spirit.	Balanced: SUM imparts holistic education through disciplined study and passionate pursuit of the miraculous operation of the Spirit.
Disconnected: Theological institutions are often disconnected from the local church, failing to include wise mentorship and practical hands-on programs.	Collaborative: SUM collaborates with Visionary Leaders to provide balanced theological and practical education and mentorship, imparting the DNA and ethos of the local church.
Costly: Students often pay a high price for their degree(s), placing an overwhelming burden on newly educated ministers.	Affordable: SUM's low tuition cost, accelerated program, and wise financial counsel facilitates a smooth transition from education to service in the ministry.

Global Leadership Initiative

After nearly twenty years in the field of Christian higher education, Chancellor George Neau began questioning the models and methods of theological education. SUM began with a close-knit group of visionaries, educators, and practitioners creating an extraordinary learning environment. However, as SUM grew, Chancellor Neau saw this synergistic environment of academics, practical experience, and personal mentorship being threatened. The challenge remained to grow the Institution and fulfill the great commission, while maintaining the original cohesiveness that enabled SUM graduates to pass the trials and tests of life and ministry.

During a season of prayer and fasting, the Cohort Model was envisioned: partner with visionary leaders and surround them with a cohort of students to mentor as they earn a B.A. degree. Hence, the Global Leadership Initiative (GLI) was born.

Course Delivery Methods

Main Campus

- **Facilities:** The El Dorado Hills campus, located at 1101 Investment Blvd., Suite 200, El Dorado Hills, CA 95762, has a 30,000-title digital library, computer lab, classrooms, offices, chapel, and men's and women's apartments.
- **Chapel:** Students and faculty gather for personal and corporate spiritual formation during our devotions and chapel times.
- **Student Housing:** SUM offers student housing for full-time Bachelor's and Master's-level students attending the Main Campus. The cost of housing is \$500 per month. Students in the Bachelor's program can reduce that cost to \$400 by completing two hours of Christian service per week.
- **Employment:** The Main Campus has various part-time employment opportunities, as well as network connections with local ministry employers.
- **Onsite-Faculty & Mentors:** One of the benefits to being on the main campus is direct access to onsite faculty and staff who also serve as mentors.
- **BAWM Worship Conservatory Vision:** One of the visions for SUM is to grow the onsite BAWM program to develop worship leaders and a worship conservatory.

U.S. and International Hubs

Christian leaders from around the world are living out their mandate to equip the next great wave of spiritual leaders in obedience to the Great Commission. SUM Cohorts unite an accredited theological college with church partners. This partnership unites dynamic leaders and their ministry teams with SUM's accredited academic programs. U. S. and International Cohorts empower a new generation of highly trained students: an army of Christian leaders equipped academically, practically, and spiritually within the local church setting.

Mission

SUM Cohorts facilitate high-quality distance education through live, interactive, online classes coupled with hands-on ministry training and personal mentoring. Throughout the United States and internationally, local churches and ministries donate classroom facilities and volunteers to host SUM study groups in which an accredited degree is achievable.

Partnering Sites

A Partnering Ministry provides a location (Cohort Site) where cohort students voluntarily gather for interactive online education. The Partnering Ministry provides free internet access, a study room, and access to all the needed equipment for the Cohort. A Cohort Site also provides systems which are necessary to fulfill SUM's experiential ministry requirements and the Student of All (SOA) requirements, such as practical hands-on ministry and mentoring.

The cornerstone to the SUM Cohort is the belief that "great leaders beget great leaders." Institutions of higher learning can produce apathy or indifference due to a disconnect in relationships with the students and a disconnect from daily life and ministry. However, SUM believes that in utilizing Christ's model, each Visionary Leader imparting teachings, practices, and life can empower leaders who will change the world.

SUM Anytime – Anywhere (SUM-AA)

SUM has been a leading force in delivering courses through an online synchronous platform, and in 2020 we introduced a new delivery system: SUM Anytime – Anywhere.

Anytime-Anywhere course sections are delivered with the same quality as synchronous courses but allow for more flexibility for student schedules. SUM-AA gives students two (2) hours of video content each week, plus 45 minutes with their instructor online in groups of 10-15 students at a time. The 45-minute weekly sessions are for coaching and mentoring, and students can choose from a few different times offered by the instructor. This platform allows students from anywhere in the US or in the world to pursue a degree program within the context of an online cohort.

Provisional Acceptance:

Purpose

In alignment with SUM's mission to prepare ministers for Christian service, a category of provisional acceptance is created to allow some flexibility for the admissions process and thus allow students who are highly motivated but do not fully meet some academic performance standard. Students who do not fully meet the acceptance criteria for admission may be admitted provisionally under some circumstances. SUM will not enroll more than 25% of their total term enrollment via this method.

Conditions under which Provisional Acceptance may be appropriate:

- Student has not completed High School or the equivalency but has completed the equivalent of one year in collegiate program (does not need to be accredited) with a minimum GPA of 2.5.
- Student has completed High School or the equivalency but does not meet the minimum requirement of 2.5 cumulative GPA.
- Student has completed High School or the equivalency but has a reported disability or IEP that will require special accommodations.
- Student records and application materials indicate a high level of motivation.

- Student records and application materials indicate that the student has higher academic potential than indicated by their GPA. Example: some college work done after HS graduation with a higher-level result.
- The student may have been out of school for a long time and has developed stronger academic skills through personal study.
- In the determination of a majority of the admissions committee the student has a reasonable expectation of success if admitted.

Additional Admissions steps for Provisional Acceptance:

All students that are identified, based on numbers 1-3 in the above section, will be required to complete a writing proficiency exam and pass.

If they pass with a score that reflects a high level of writing proficiency, they will move on as a provisional student and must go through the process to complete provisional acceptance as indicated below.

If they pass with a score that reflects a lower level of writing proficiency, they will move to the remedial process which will require them to meet weekly with appointed members of the academic team to help them gain a greater level of proficiency. They will still have to move through the process to complete provisional acceptance.

If they fail the writing proficiency test, they will not be accepted into their desired program.

Process to Complete Provisional Acceptance:

- The Cohort Advisor must be contacted by the admissions office.
- The provisionally accepted student will be on probation status for the first three trimesters.
- The Cohort Advisor will be responsible to meet with the student to evaluate the student progress on weeks three and seven of each trimester.
- The provisionally accepted student will be allowed to enroll in a maximum of 10 credits during Fall and Winter trimesters, and 12 credits during Spring trimester (to include ECO credits).
- If the provisionally admitted student achieves a GPA of 2.5 or more in the first trimester, or if their cumulative GPA is 2.5 or more after their first two trimesters, then the student will be able to increase the number of units in the next trimester.
- The provisionally accepted student will be followed according to the Retention Plan.
- Students who maintain an overall GPA of 2.0 or higher during the first year will be moved to full admission status.
- If the provisionally admitted student falls below the SAP standard for any of their first 3 trimesters he or she will be withdrawn.

Temporary Admission Policy

The following policy is approved as a *temporary accommodation* for applicants who are unable to provide transcripts of their High School or College level work.

Students should submit the best documentation available to them at the time of application:

1. An unofficial transcript if available
2. A copy of their High School Diploma or GED even if full documentation is not available
3. A personal statement that they have graduated or attended college and their best knowledge regarding their GPA

Students admitted under the temporary admission policy are *required to submit all missing documentation as soon as the relevant offices provide the documentation or within six months from the date of the student's acceptance to the program* to which they were admitted, whichever is sooner.

Temporary admissions students are allowed to register for a full course load but will be evaluated when official documents are received and if provisional admission is warranted, they could be moved to provisional status by decision of the admission committee.

If students cannot provide the required documentation within six months of when they were temporarily admitted, they will be considered a non-degree seeking student and all classes taken will be converted to audited credits.

This policy applies to all students whether U.S. or International.

Graduate Admissions for Students without a Bachelor's Degree (Life Experience Policy)

Applicants to a master's program who do not possess a B.A. or B.S. degree accredited through a CHEA (Council for Higher Education Accreditation) approved institution but who have at least seven years of substantial full-time ministry experience may apply for an evaluation of bachelor's degree equivalency.

In addition to the regular application materials, applicants interested in this option must submit the following:

- documentation of all prior formal collegiate and ministerial training, including diplomas, certificates, evaluation documents and transcripts;
- written descriptions of past and present ministerial roles;
- an essay of 1,500-2,000 words describing how the applicant's educational and ministerial journey has prepared him or her for graduate study at SUM;
- a letter of recommendation from an academic or professional training leader addressing the applicant's preparedness for graduate study.

Each application will be evaluated by the graduate admissions committee. Those applicants deemed by the committee prepared for graduate-level study will be admitted to the master's program. SUM limits the number of active students enrolled in each graduate degree program under the Life Experience policy at one time to 15% of the total number of students in each program.

In some cases, where some uncertainty remains as to an applicant's preparedness, the graduate admissions committee may opt to admit the applicant as a Special Student and limit the number of courses for which the applicant may register or prescribe remedial courses on the undergraduate level as prerequisites for admission into the graduate program.

Applicants with Insufficient Undergraduate GPA

Graduate Record Exam (GRE) Admissions

SUM's graduate programs indicate a desired undergraduate GPA of 2.75 or greater. If a student's GPA is below 2.5, the applicant can take the GRE for admissions consideration. The applicant's GRE score will be reviewed and taken into consideration for admissions. GRE's are not required for students who meet the GPA standard.

Our institutional code number is: 4142.

GRE	Minimum Score
GRE Verbal	150
GRE Writing	3.5

Additional Documentation

An applicant who does not have a sufficient undergraduate GPA is encouraged to submit any additional materials as evidence of their ability to succeed in the graduate program. Examples of documentation that may be considered include, but are not limited to, the following:

- documentation of all prior formal collegiate and ministerial training, including diplomas, certificates, evaluation documents, and transcripts;
- any academically published materials (e.g., books, articles, journals, etc.);
- written description of past and present ministerial roles, ordination, etc. (CV / Resume);

If the student achieves a GPA of 2.5 or greater for this trimester, this accomplishment will be added to their admissions file for consideration for full acceptance into the graduate program.

Transfer of Credits

Transfer students from other colleges are required to complete the SUM application process. Transcripts must be mailed directly to SUM from the previous colleges or universities, signed and sealed. Official electronic transcripts also are accepted. After the transcripts are on file, the Registrar's Office will evaluate the transcripts and successfully transferred credits will appear on the student's Degree Audit.

SUM does not accept credit for experiential learning at a previous institution. If a student wishes to apply for experiential learning credit, they must do so through SUM's policy on Experience-Based Learning Credit. For more information, contact admissions@sum.edu.

Transfer of Credits from an Accredited College

To transfer prior credits to SUM's degree:

- Comparison will be made from a previous institution's catalog, academic calendar, course descriptions, credits, and accreditation status.
- A minimum grade of C is required for transfer credits.
- Courses that can be transferred must be similar in content to the course offered at SUM.

SUM must receive an official transcript from the applicant's former college. Transcripts from these institutions must be sent directly from the college or high school to the Admissions Department at SUM. Unofficial transcripts sent by the applicant themselves can only be used to start the admissions process, but an official transcript is required for acceptance.

Transfer of Credits from an Unaccredited College

SUM sets forth the following policy on validating credits earned at unaccredited institutions:

In dealing with transfer of credit issues, SUM follows the Transfer and Award of Academic Credit statement approved by CHEA, ACE, and AACRAO. This statement provides that "Institutions admitting students from unaccredited institutions should take special steps to validate credits previously earned."

Proper validation will demonstrate that course work taken in the sending institution is comparable to course work offered by the accredited receiving institution. It may be accomplished by some combination of the following means:

- demonstration of achievement by means of comprehensive examinations;
- review of syllabi, faculty credentials, grading standards, and other relevant learning resources at the sending institution;
- analysis of historic experience regarding the success of transfers from the sending institution;
- successful completion of a prescribed amount of study at the receiving institution.

Institutions shall retain documentation in the student's permanent file outlining the process used to validate credits accepted from unaccredited sending institutions. This documentation shall serve as the

basis for self-study of institutional practices relative to validation of transfer credits from unaccredited institutions.

To have courses from an unaccredited college evaluated, the student must complete the following steps:

- An official transcript must be sent directly from the college to the admissions office.
- An official catalog from the sending college indicating the duration of courses must be provided. This must include how many minutes the course met each day, how many days it met each week, and how many weeks it met in each term.
- One way of indicating the value of possible credit transfer would be letters from three (3) colleges that are either nationally or regionally accredited that indicate acceptance of the credits from the unaccredited college in question. In addition, a statement of how the credits is accepted should accompany the letters (for example, the credits are accepted on probation, only half of the credits are accepted, only Bible courses are accepted, etc.).
- Provide documentation to help determine if courses considered for transfer credits were taught by faculty who possess necessary credentials, met for equivalent hours as SUM courses, use academically recognized textbooks, and are equivalent to taking a similar course at SUM.
- A catalog that has a full course description of each course represented on the transcript must be provided.
- The student must provide a syllabus for each course.
- Course grades must be 70% or higher to be considered for transfer credits.

Advanced Placement Classes

Students with outstanding academic achievement in high school may apply for college credits through Advanced Placement (AP), International Baccalaureate (IB), and College Level Examination Program (CLEP), taken during their sophomore, junior, or senior years of high school.

The student must enter SUM for study no later than five (5) years after graduation from high school. Students are encouraged to submit all successful scores to the SUM Registrar for consideration. In the event a student transfers to another institution, credits approved for acceptance within SUM must be evaluated by the receiving institution.

General Education credits will be awarded according to the broad field of study, such as: English, Science, History, Math, Art, Language, etc.

Typically accepted scores are:

Program	Scores
Advanced Placement (AP)	3, 4, and 5

International Baccalaureate (IB)	5 or higher
College Level Examination Program (CLEP)	50 or higher

Enrollment Policies

Executive Committee Approval / Denial

Students who are accepted to SUM Bible College and Theological Seminary will receive an acceptance letter sent via e-mail that will include a list of additional steps to take in order to enroll in the program. Accepted students will be required to sign an [Enrollment Agreement](#) before being able to register for any coursework.

SUM does not disclose to applicants the reason(s) why they have been denied admission. Applicants are welcome to contact the Admissions Office at admissions@sum.edu to inquire about the status of their application.

Non-Degree Students

Non-Degree Student status provides a means of pursuing an interest in theological and biblical studies or testing one's ability to do college or graduate work with a minimum of administrative entanglements. A Non-Degree Student may take any courses for which they qualify for credit, without completing the full application process required of SUM applicants.

In addition to the application (which includes reading and agreeing to the SUM Community Covenant, SUM Statement of Faith, Academic Catalog, and Student Handbook), the only document required is a copy of the student's high school or undergraduate transcript.

If English is not the student's first language, the student should note that participation in SUM classes presumes proficiency in reading, writing, and speaking English. Applicants for whom English is a second language are required to achieve a TOEFL score of at least 80 on the iBT and 550 on PBT before enrolling, and comparable ability is expected of all students in English language classes.

There is no financial aid available from SUM sources for students in non-Degree status. Therefore, applicants need to be able to finance course work from independent sources. For estimated costs of attendance, please see sum.edu/tuition.

Housing is not likely to be available since full-time degree candidates have priority for available space.

If a student is considering taking courses as a Non-Degree Student while applying for admission as a degree candidate at the same time, please note that if the student is not admitted, the student will have to discontinue taking courses as a Non-Degree Student.

Once an applicant has submitted the application, transcripts, and tuition, the Admissions Office will send further registration instructions. Non-Degree student applicants must read and agree to the SUM Statement of Faith, Academic Catalog, and Student Handbook.

Bridge Program (High School Students)

Students concurrently enrolled in High School may be admitted to SUM as special admission students.

1. The following conditions must be met:
 - a. The student has completed the 10th grade
 - b. A minimum of 3.0 GPA is required.
2. Students will earn college credit for all courses.
3. Students must satisfy all prerequisites, eligibility requirements, policies and regulations as stated in SUM's catalog.
4. Students must read and agree to the SUM Statement of Faith, Course Catalog, and Student Handbook.
5. Students must submit written authorization from their parents/legal guardians.
6. There is no financial aid available from SUM sources for students in the Bridge Program. Therefore, students need to be able to finance their course work from their own sources. For estimated cost of attendance, please look at the [Tuition Page](#).
7. SUM reserves the right to exclude or limit enrollment of Bridge Program students to specific programs and/or courses based on instructional methodology, faculty constraints, or legal requirements.

U.S. Armed Forces Institution

SUM grants credit for course work completed through the U.S. Armed Forces Institute. This usually applies to general education course work and is granted by the Registrar upon review of transcripts. The student is responsible to have a copy of the transcript sent to the Registrar's Office.

Veterans

SUM has been approved under the provision of Title 38, U.S. Code of the Veterans Administration, the California Post-Secondary Education Commission relating to Veterans Affairs. Veterans and other eligible persons can use their VA education benefits. Applicants can apply for Veteran Benefits at <http://vaonce.vba.va.gov>.

Grants, Loans, and Scholarships

Title IV Funding

SUM participates in the following Federal Student Aid (FSA) programs:

- Federal Subsidized Stafford Student Loans
- Federal Unsubsidized Stafford Student Loans
- Federal Parent PLUS Loans
- Federal Pell Grant
- Federal Supplemental Educational Opportunity Grant
- Federal Work-Study Program

To be considered for Title IV funding, applicants must complete the following steps:

1.	<p>The Free Application for Federal Student Aid (FAFSA): All students must complete the FAFSA upon admission. The FAFSA must be completed online at https://studentaid.gov/h/apply-for-aid/fafsa. The SUM School Code is: 037524.</p> <ul style="list-style-type: none">➤ Students are encouraged to use the IRS Data Retrieval Tool (DRT) within the FAFSA to request Federal IRS tax information to avoid having to request a tax transcript mailed by the IRS.
2.	<p>Federal Student Loan Master Promissory Note (MPN): All students must complete the MPN upon admission. The MPN may be completed online at https://studentaid.gov/mpn/.</p> <ul style="list-style-type: none">➤ Students will use their FAFSA and password to log into this site. Students then will need to complete the Undergraduate Stafford Loan Master Promissory Note.➤ If a parent is taking out a PLUS loan, they will need to complete the Parent PLUS Loan Master Promissory Note.

3. Federal Student Loan Entrance Counseling: All students must complete Student Loan Entrance Counseling upon admission. Entrance Counseling may be completed online at <https://studentaid.gov/entrance-counseling/>.
 - Complete the Entrance Counseling and note the Exit Counseling. The Exit Counseling will need to be completed upon graduation.

For more information, visit SUM's website at <https://www.sum.edu/financial-aid/>.

Once a student is admitted and completes the FAFSA, they will be notified via email by the Office of Financial Aid staff if any additional information is required. Financial aid is available to assist students with their direct costs (tuition and fees) and indirect costs (room & board, personal and transportation expenses). Any balance remaining after all aid is applied must be paid in-full prior to the start of classes.

Federal Pell Grant

The Federal Pell Grant program provides federal funds for students of families that qualify. To be eligible, an applicant must be a United States citizen or permanent resident, demonstrate financial need, and must not have previously received a bachelor's (or higher) degree. Students may apply for the Pell Grant by filling out a Free Application for Federal Student Aid (FAFSA).

Student Loans

SUM participates in the Federal Direct Stafford Loan Program (FDSL). Students and parents may borrow up to the cost of attendance through these federally subsidized and unsubsidized loans. To be eligible for an FDSL loan, students and/or parents must fill out the Free Application for Federal Student Aid (FAFSA) online by going to www.studentaid.gov. A Master Promissory Note and required counseling need to be completed annually at <https://studentaid.gov/mpn> for loans to be disbursed. Any student taking out a private loan is subject to the terms and agreements regarding repayment by the lender. In the event the amount of federal aid offsets private loans, SUM will return, by check, any refund due within the guidelines established for federal aid. Please consult the Financial Aid Office for more information.

If a student obtains a loan to pay for an educational program, the student will have the responsibility to repay the full amount of the loan plus interest, less the amount of any refund. If the student has received Federal Student Aid funds, the student is entitled to a refund of the money not paid from federal student financial aid program funds.

Veterans Benefits

SUM is approved for the training of veterans who are entitled to educational benefits under existing laws. A veteran wishing to use these benefits should contact their local Veteran's Affairs Office for approval, indicating the degree or certification that they are seeking.

Scholarships

Scholarships may be available to students in need of financial assistance.

Students are encouraged to seek other support such as church sponsorships and scholarships offered by outside organizations to qualified students.

Maximum Time Frame Requirement

Students requesting financial aid are expected to complete an academic program within a reasonable time frame. Full-time graduate students at SUM should complete the MA programs within three (3) years. The SUM Catalog for SUM's MA programs is valid for three (3) years.

SAP Requirements for Financial Aid

For more information on the requirements for maintaining SAP, see pages 98-103 in the academic catalog.

For additional information regarding financial aid programs, please contact the Financial Aid Office by email at financialaid@sum.edu.

Returns and Refunds

Financial aid is awarded based on the enrollment at the end of the add/drop period. Students will be charged for the full cost of the term unless they drop all classes during the official add/drop period. After this period, the student can withdraw up to the Withdrawal Deadline published in the academic calendar but will be responsible for 100% of the fees and tuition associated with that course. If the student withdraws after the add/drop period prior to completing 60% of the term, Pell grants and/or loans may have to be returned to the Department of Education, and the student will be responsible for reimbursing SUM for the returned funds. Withdrawal from all classes or dropping below full-time status may generate a balance owed to the school. Any balance owed by the student account after withdrawal will be billed. Failure to honor the financial commitment may adversely impact the student's credit rating/score.

Any refunds or adjustments must be made using the official forms from SUM, which are available at <https://www.sum.edu/forms/>. The forms may be sent electronically to SUM to comply with time frames, but a hard copy must be mailed to:

Office of the Registrar
SUM Bible College & Theological
Seminary 1101 Investment Blvd.,

Add/Drop Period

The add/drop period is the first week of each term. It begins the first day of the term and ends Sunday evening at 11:59 p.m. (Pacific Time Zone) the end of the first week of class for the term. Students may add or drop courses within that week with no financial or academic penalty. After the add/drop period, the

student becomes responsible for 100% of the tuition and fees for the course, even if the student elects to withdraw at a later time.

Attendance in Weeks 1-2

A student who does not attend either of the first two (2) class sessions of a course will be automatically withdrawn. If a student anticipates missing the first two class sessions, or if an extenuating circumstance occurs such as sudden and serious illness, then the student may petition the College for permission to remain registered for the course even though the student has missed the first two class sessions. If approved, the total amount of time required for course attendance is not changed. Students may not miss 25% or more of class time during a trimester, and the approval of a petition to allow a student to continue in a course even though the student has missed the first two sessions does not change that attendance requirement.

Excessive Absences

Students who reach the 25% maximum for absences will not receive credit for the course. If a student reaches 25% absence in a course before the last day to withdraw and has not submitted a [withdrawal form](#), the student will be automatically withdrawn. After the last day to withdraw, students who reach the 25% absence mark will receive an F grade for the course. If students have missed excessive numbers of class minutes due to a serious illness or other reason beyond their control, then they may use the online [Directed Research Add/Drop Form](#) to request that the course be reclassified as a Directed Research course. A Directed Research fee may apply.

Leave of Absence

Students must sometimes interrupt their studies for a variety of reasons (military service, illness, car accidents, death in the family, a natural catastrophe, employment hardships, etc.). Students choosing to take a leave of absence should first contact their Cohort/Academic Advisor to discuss their plans while on leave to work out any conditions that may be necessary for a smooth return to SUM.

A student may leave SUM by either withdrawing from the college/seminary (this means leaving with no intention of returning) or by taking a leave of absence (this means leaving temporarily, with the firm and stated intention of returning). Notifying instructors or ceasing to attend classes does not complete the process. Students should submit an [academic withdrawal form](#) online and indicate either a permanent or temporary withdrawal. If a student is unable to fill out the form, an academic advisor may submit the form on the student's behalf.

When a student requests a leave of absence during a term, they may also need to apply for an Incomplete (I) for any courses they are unable to finish. This is a separate process from the leave of absence (see below for the requirements and process for an Incomplete.). If a student who requested a leave of absence fails to enroll in the next six (6) months, their enrollment status will change to Withdrawn (W) and they may have to begin repaying Title IV loans when the grace period ends. A withdrawn student will need to reapply in order to return to classes if it has been more than one (1) year since their last attendance. Any credits earned at SUM in the student's previous time of enrollment will be categorized as transfer credits. Please see the section on Transfer Credits for more information.

The Academic Department is responsible to communicate any approved leave of absences to the Financial Aid Office within two (2) weeks of the student's last day of attendance for proper procedures to be taken in the handling of Title IV aid. The length of time for the leave of absence is determined by the student's action plan and must be agreed upon by SUM and the student but is not to exceed 180 days in any 12-month period as mandated by the Department of Education, and the student must resume coursework

at the same point in the academic program that they began their leave of absence. The student may not receive any additional Title IV funds until they have completed the coursework required for the term in which the leave of absence occurred. If future developments warrant an amendment to the action plan, the student must submit a revision to the action plan which will be approved or rejected by SUM.

Title IV recipients who fail to fulfill the leave of absence action plan and have exhausted the appeals process may be subject to a revised loan repayment schedule, including the expiration of the grace period granted under the terms of the repayment of Title IV Loans. SUM will report the student's last day of attendance in accordance with federal regulations.

When SUM grants a leave of absence, an official letter will be given to the student and a copy placed in the student's permanent records. In a timely manner, the student will provide updates on the action plan's progress to SUM. If the student fails to honor the agreement, SUM will withdraw the student from the academic program and inform the appropriate government agencies of the official withdrawal from their program. The student will be notified of SUM's action and will have 30 days to file an appeal, which details the student's reasons for reinstating the leave of absence. The Executive Committee will rule within ten (10) days its decision to accept or reject reinstatement. Approval cannot be assumed; students will be notified of the final decision.

Withdrawing from SUM

Initial Enrollment

A student will sign their [Enrollment Agreement Form](#) upon admission to SUM. Each student has a "Right to Cancel" for seven (7) days after signing the Enrollment Agreement or up to the first day of class, whichever is later. The Student's Right to Cancel is included in the Enrollment Agreement. When a student cancels their initial Enrollment Agreement there are no financial or academic consequences for the student.

Cancellation of Enrollment Agreement

The cancellation of a student's Enrollment Agreement is explained in the Right to Cancel document. Students living outside of California have the same right to cancel but do not have recourse from the [CA Bureau of Private Post-Secondary Education \(BPPE\)](#).

Voluntary Withdrawal

After initial enrollment and once the period covered by the Student's Right to Cancel is passed, students who find it necessary to withdraw from a class, classes, or from the College may do so under the following guidelines:

1. Students may add or drop courses during the add/drop period without financial or academic consequences.
2. A student may withdraw voluntarily after the add/drop deadline and before the withdrawal deadline (both listed in the [Academic Calendar](#)). In this case, the student will be financially responsible for the tuition associated with the course they are withdrawing from, but there is no academic consequence in that it will not affect their grade point average. A voluntary withdrawal is considered an attempt by the U.S. Department of Education and will be registered on the student's transcript as an attempt and will count towards a student's Completion / Attempts Ratio.

3. If a student does not complete the required process for a withdrawal, they will be awarded the grade they have earned at the end of the course.

Involuntary Withdrawal

1. A student may be involuntarily withdrawn from a course under the following circumstances: If a student fails to attend a class for which they are registered and if the student fails to communicate to the faculty member the reason(s) for missing the first two weeks of class, SUM's Registrar will remove the student's classes from enrollment and all funding will be returned to the appropriate agencies. This forced withdrawal does not remove any financial obligation the student has incurred. A student who leaves the College without officially withdrawing is responsible for all financial commitments to the College.
2. A student may be withdrawn from the course if they miss more than 25% attendance. In that case they will be given a WA grade on their report card. In this case no credit will be earned. Students receiving a WA remain financially responsible for the course.
3. A student may be administratively withdrawn from a course for reasons such as not maintaining payment arrangements, student disciplinary matters, academic dishonesty, or other administrative causes. A student who is administratively withdrawn receives an ADW on their transcript.

Cancellation Notice

To cancel the contract for School, mail or deliver a signed and dated copy of this cancellation notice. A fax or email is not acceptable. Send notice to:

Any questions a student may have regarding this Enrollment Agreement that have not been satisfactorily answered by the institution may be directed to the Bureau for Private Postsecondary Education at 2535 Capitol Oaks Drive, Suite 400, Sacramento, CA 95833, www.bppe.ca.gov, toll-free telephone number (888) 370-1897. A student or any member of the public may file a complaint about this institution with the Bureau for Private Postsecondary Education by calling (888)370-7589 toll-free or by completing a complaint form, which can be obtained on the Bureau's internet website www.bppe.ca.gov.

Student Initials:

Return to Title IV Policy

The federal government mandates that students who withdraw from all classes may only keep the financial aid (federal "Title IV" grant and loan assistance) they have "earned" up to the time of withdrawal. Funds that were disbursed more than the earned amount, or unearned aid, must be returned to the federal government by SUM and / or the student.

Earned Financial Aid

A pro-rated formula is used to determine the amount of Federal Student Aid monies that have been

earned based on the date of the student's withdrawal from the program. Earned Federal Student Aid is pro-rated based on the percentage of the term completed. If the date of withdrawal is after completing more than 60% of the payment period, a student will have earned 100% of their Federal Student Aid for that term and repayment is not required.

Unearned Financial Aid Repayment

The amount of unearned Federal Student Aid is calculated as the total amount of aid minus the portion of earned aid. If a student withdraws from SUM before completing over 60% of the term, the student may be required to repay portions of the Federal Student Aid received during that payment period. The College has 45 days from the date the College determined, by the Registrar, that the student withdrew to process the return to Title IV aid.

Unearned aid is returned in the following order, up to the net amount disbursed from each source:

1. Federal Unsubsidized Direct Loan
2. Federal Subsidized Direct Loan
3. Federal Direct PLUS (Parent) Loan
4. Federal Pell Grant
5. Federal Supplemental Educational Opportunity Grant (FSEOG)
6. Other federal loan or grant assistance

Federal Student Aid consists of FDSL unsubsidized and subsidized loans, as well as FSEOG (Federal Supplemental Educational Opportunity Grant), Federal PLUS loans, and Federal Pell Grants.

All monies owed to the College must be paid to the School of Urban Missions. For details, please refer to the Business Office at (916) 306-1628 or businessoffice@sum.edu.

STUDENT AFFAIRS & SERVICES

Office of Student Life

Overview

The Office of Student Life endeavors to cultivate a holistic living and learning community. Our primary goal is the advancement of academic and spiritual formation for the student body. This involves developing a comprehensive plan to help meet the spiritual needs of a diverse student body, provide guidance and counseling services to the students, and promote and supervise the educational experience in the student's extra-curricular life. The Student Life Office promotes a spiritually healthy environment through chapels, discipleship groups, developing and maintaining the mentorship program, working with student government, career counseling, as well as planning events that affect the student body's spiritual, physical and emotional health.

Learning Outcomes

The mission of Student Life is to prepare students for ministry by strengthening their physical, emotional, and spiritual lives. As a result of the Student Life program, students will:

- apply problem solving, decision making and leadership skills in relation to personal challenges with the direction of a personal mentor;
- grow in personal maturity, Christian character, effective life skills, academic discipline, sensitivity to the Holy Spirit and holistic spiritual formation;
- develop interpersonal skills contributing to overall emotional, relational, and vocational health;
- establish habits associated with the spiritual disciplines, including prayer, fasting, meditation, worship, church attendance, service, academic study, Bible reading, and journaling;
- reflect on biblical and theological concepts in the context of personal spiritual formation and ministry practice.

Servant of All (SOA) Philosophy

Underlying the SUM curriculum is the "Servant of All" (SOA) Philosophy. The SOA Philosophy comes from the words of Jesus: "And whosoever would be first among you, shall be servant of all" (Mark 10:44, ASV). This biblical injunction of Jesus Christ to be a servant of all forms the backbone of SUM 's educational philosophy.

The SOA Philosophy embraces spiritual, intellectual, financial, social, and physical development, and emphasizes the leading of the Holy Spirit in growing student discipline, passion, and character.

NOTE: A detailed explanation of Student Life policies, including the Servant of All (SOA) philosophy and campus life expectations, can be located in the [SUM Student Handbook](#).

Activities

New Student Orientation

The New Student Orientation Course acclimates students to the culture and community of SUM Bible College. Students will be introduced to the various technologies used by SUM. They will also receive an overview of student life and ministry requirements, assisting them with personal mentorship and practical ministry development. Finally, the New Students Orientation course contains the writing proficiency exam required for new students to assess their initial writing level upon entry at SUM.

This course is supplemented by live New Student Orientation events at partnering locations and Online Student Orientations hosted by our Student Life and Ministry Staff, developing a sense of community and belonging for all SUM students.

Student Life Expectations

As a Christian institution, SUM requires its members to exemplify the Christian values and principles of the Scriptures. Those in violation of school policies, while enrolled in classes and during all breaks, on and off-campus, will be subject to discipline and possible expulsion for unacceptable behavior.

The primary purpose of SUM is to prepare individuals for lives of service and leadership in the church and the world. As a Christian college, standards have been established regarding student behavior and lifestyle that contributes to an environment that honors Christ. The policies related to personal accountability, expectations for on and off-campus behavior, and guidelines for student appearance are based on biblical principles and can be found in the [Student Handbook](#).

Mentorship Program

As part of the “Servant of All” Philosophy, SUM provides each student with a mentor that models positive values and spiritual principles. The relationship between the mentor and student is built upon mutual trust and respect. A mentor's role is to encourage and to hold students accountable in the areas of academics, spiritual and personal development, physical fitness and diet, interpersonal relationships, and financial integrity. A strong mentor is vital in helping a student develop the disciplines for life-long ministry. They offer spiritual care and mentoring during office hours, over coffee or mealtimes, and even in their homes.

Mentorship Objectives:

As a result of the Mentorship Program students will:

- apply problem solving, decision making, and leadership skills in relation to personal challenges with the direction of a personal mentor;
- grow in personal maturity, Christian character, effective life skills, academic discipline, sensitivity to the Holy Spirit, and holistic spiritual formation;
- develop interpersonal skills contributing to overall emotional, relational, and vocational health;
- establish habits associated with the spiritual disciplines including prayer, fasting, meditation, worship, church attendance, service, academic study, Bible reading, and journaling;
- reflect on biblical and theological concepts in the context of personal spiritual formation and ministry practice.

Mentorship is also intended to bring glory to God through the relationship between the mentor and the student. In the process of learning, the student will grow in:

- a vision of God's work through them;
- Christ-like qualities of servanthood and humanity;
- personal and spiritual maturity;
- setting personal and ministry goals, and starting to take steps to achieve them;
- making good choices that will enhance righteous living;
- facing challenges and working their way through them.

Each component of the student's personal spiritual formation, including chapels and church attendance, mentorship, physical fitness, spiritual formation focus, and SOA progress, will be tracked in the Student Mentorship course in Canvas. A student must pass nine (9) trimesters of Student Mentorship to graduate.

Christian Service

SUM students are encouraged to serve their churches and communities through their practical ministry requirements. Additional Christian Service opportunities may be available to students at various locations.

- Main Campus: Students choosing to live in student housing will have two (2) hours of Christian Service required to offset the cost of their subsidized rent. Students choosing not to schedule a Christian Service requirement will be charged an additional \$100 monthly for their student housing.
- Cohort Sites: Cohorts may require Christian Service hours to reduce or eliminate site fees and /or student housing costs. It will be the responsibility of the Cohort to assign and monitor Christian Service hours.
- Online Students: No Christian Service requirement exists beyond the required practical ministry hours.

Health and Safety

Campus Safety and Security

Under the Clery Act, students at SUM Bible College and Theological Seminary have the right to examine El Dorado Hill's crime statistics. This information is located with the Student Life Office. The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, or Clery Act, is a federal statute codified at 20 U.S.C. § 1092(f), with implementing regulations in the U.S. Code of Federal Regulations at 34 C.F.R. 668.46.

The Clery Act requires all colleges and universities that participate in federal financial aid programs to keep and disclose information about crime on and near their respective campuses. Compliance is monitored by the United States Department of Education.

The SUM Bible College and Theological Seminary publishes and distributes an Annual Campus Security Report to current and prospective students and employees. This report is required to provide crime statistics, policy statements regarding various safety and security measures, campus crime prevention program descriptions, and procedures to be followed in the investigation and prosecution of alleged sex offenses.

Safety Incident Reporting Procedure

SUM encourages the victims and witnesses of all criminal activities and safety violations to report those incidents to the appropriate Department and to the local authorities.

Criminal activity should be reported to the appropriate authorities and this procedure is not intended to replace such reporting.

There are two ways safety incident reports may be generated: 1) on campus; and 2) student housing.

➤ On campus report procedures.

- Report given to the Campus Director and property manager
- Campus Director will copy the VP for Cohort Development every report
- The VP for Cohort Development will send each report to the SUM Campus Safety Reporter

➤ Student housing report procedures.

- Incident should be reported to Resident Director
- The Resident Director will forward a copy of the report to the VP of Cohort Development.
- The VP of Cohort Development will forward a copy of the report to the SUM Campus Safety Reporter.

BA Practicum Components

SUM's Student Ministry Program is a leader among Bible colleges for providing practical hands-on ministry opportunities in a wide variety of settings and locations, from inner cities to suburban areas. The Student Ministry Office focuses on three distinct areas: Practicum, Outreach, and Internship. Full details of SUM's Practicum policies can be found in the [Student Handbook](#).

Mission Statement

The Student Ministry Office has a two-fold function:

- Integrate experiential learning into SUM's academic programs so that students learn to be effective witnesses of the Gospel (a) through a lifestyle that is consistent with the Word of God, and (b) through confident but humble proclamation of the Gospel message.
- Cultivate and graduate students who are ready to lead in their respective areas of calling. These functions are accomplished by providing students with opportunities for hands-on ministry, under the

mentorship of college-appointed men and women of God.

Student Ministry Components

Practicum

A Practicum is a supervised “hands-on” opportunity to minister the Gospel to individuals by various means and methods. Practicum is about the Praxis of Ministry as opposed to the Theory of Ministry. The Practicum experience is a systematic approach to train students to apply in real life what they are learning in the classroom. A Practicum meets four (4) hours weekly, and one (1) credit is earned per trimester, per Practicum.

The purpose of the ministry Practicum is to broaden the student’s ministry experience and to challenge students with tasks that are new to them. These new experiences will take a student from their comfort zone and will create opportunities for the student to learn dependency on the Holy Spirit for their ministry.

Elaborated Practicum clarifications include:

- A minimum of four (4) hours each week in active ministry. A student may volunteer over and above the required time if so desired.
- The student can be trained in several areas, such as conducting Bible studies, preaching, teaching, worship, evangelism, ministry event planning, etc.
- The student should not be used as a janitor, runner, secretary, etc. While some of these tasks may be included in the Practicum, the student should have the opportunity for front-line, hands-on ministry such as preaching, teaching, witnessing, discipleship, leading worship, praying for the sick, visitation, etc.
- The Ministry Leader should personally observe and mentor the student as well as provide training and de-briefing of ministry activities.
- It is expected that the Ministry Leader meets with the student weekly to give feedback regarding student progress in the Practicum. This meeting may be during the four (4) hour Practicum period.
- If the student is absent for more than two (2) Practicum sessions, the student will automatically fail the Practicum.
- In order to receive credit for Practicum Ministry, each student is required to complete a Practicum Agreement Form, complete a Daily Prayer Journal, complete the Reflection Application quizzes, and receive an Evaluation of their Practicum work from the Practicum Leader.
- Practicum attendance is mandatory, and any student who misses more than two (2) Practicum sessions will fail the Practicum automatically.
- Forty (40) hours of Practicum are worth one (1) credit on a student’s transcript. To graduate, 19 Practicum credits are required for each of the BABS and BATM degrees, and 16 Practicum credits are required for the BAWM degree.

A student who refuses to complete the Practicum requirements will be dismissed from the program.

Evangelism Conference & Outreach (ECO)

Annually, SUM students from the Main Campus, from across the U.S., and from our foreign sites converge on a major US city for the purpose of evangelism. Students meet together each morning for powerful worship experiences, and the evenings are full of street evangelism outreaches. Students are stirred by the Holy Spirit through worship, prayer, and preaching of God's Word by dynamic Visionary Leaders, and hit the streets as the army of God, sharing their faith with the lost. This event unites the student body and gives practical hands-on training for witnessing in the name of Jesus Christ.

Internationally, this evangelistic outreach is conducted at locations determined by the International Cohort leadership team. SUM students, faculty, and administration share the Gospel of Jesus Christ with people from all walks of life who are searching for truth, acceptance, love, and significance.

All students are required to participate in two (2) Evangelism Conference and Outreaches (ECO) (2 credits each) in their first and second years to graduate. **All BAWM students will participate in the Praise and Worship Team for one of the Outreaches.** All first- and second-year students will be automatically registered for ECO at the start of each Spring term.

If a student who has not completed this ministry requirement cannot attend the Outreach, the student must submit an [ECO – Leave of Absence Request](#). This request is subject for review by the Student Ministry Office. Any student submitting the form after the Add/Drop deadline will not receive a refund of any kind, including credit toward another year for ECO Event.

Internships

Church Internship and Music Internships are practical learning experience programs for final-year students, involving hands-on ministry opportunities in the marketplace, mission field, and church settings, in fulfillment of the Great Commission and the personal mission of Jesus Christ in the world (Matt. 28:18-19; Mark 16:15-16; Luke 10:1-3; John 4:35-38). The student will work alongside an Internship Leader who is approved by the Assistant VP of Cohort Development & ECO Director (Main Campus) or Cohort Advisor (Cohort Sites), who will guide the student in developing a Senior Year Project demonstrative of the student's call of God and/or course concentration.

Internship Process

- The student must submit the Internship Agreement Form and gain approval of the intended Internship Leader prior to starting the Internship.
- In consultation with the Internship Leader, BABS, BAWM, and BATM students will propose, outline, describe, and develop a Senior Year Project that expresses a student's calling.
- Collaborate with an Internship Leader about four (4) hours per week for mentorship and Project development.
- Submit weekly Senior Year Project Development Reports.
- All BABS, BAWM, and BATM students will publicly exhibit their completed Senior Year Projects at the end of the trimester during finals week. In addition to the internship/senior project, all BAWM students will perform a Worship / Music Recital at the ECO Conference.
- The student will complete and submit an Internship Evaluation Form via Canvas.

Frequently Asked Questions

Students, parents, advisors, and faculty may look at SUM's FAQ page found at www.sum.edu/faq.

Academic Policies

General Education Philosophy and Purpose

SUM is preparing ministers who can communicate the whole gospel to the whole world. To be successful in accomplishing that task, SUM graduates should possess skills for success in life. Christian ministers are also husbands and wives, fathers and mothers, entrepreneurs, and employees. As such, they will use general educational skills to locate, evaluate, analyze, and communicate the flood of information they will encounter daily. Overly specialized education is not adequate in today's social and cultural environment.

Therefore, SUM employs a holistic educational philosophy. The core values of SUM require students both to understand theology and to effectively apply that knowledge in a variety of cultural settings and to communicate clearly and effectively the knowledge they possess.

With these ends in view, General Education curriculum at SUM incorporates the 5 core competencies of written communication, oral communication, quantitative reasoning, information literacy, and critical thinking as students seek to achieve the learning goals of the program. These competencies provide students with 1) components of life success; 2) a holistic educational perspective; 3) the ability to locate and evaluate information; 4) the ability to think critically about information and opinions; 5) the ability to communicate their thoughts effectively within their cultural milieu both orally and in writing to the widest possible audience; and 6) the ability to use numerical calculations to understand budgets, projections, and reports. Therefore, general education requirements and the core competencies that they impart are critical to the educational process at SUM.

Definition of Academic Credits

The credit hour is defined by WASC's Senior College and University Commission as follows: "Except as provided in 34 CFR 668.8(k) and (l), a credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than — 1) One hour of classroom or direct faculty instruction and a minimum of two hours of out of class student work each week for approximately fifteen weeks for one semester or trimester hour of credit, or ten to twelve weeks for one quarter hour of credit, or the equivalent amount of work over a different amount of time; or 2) At least an equivalent amount of work as required in paragraph (1) of this definition for other academic activities as established by the Institution including laboratory work, internships, practicums, studio work, and other academic work leading to the award of credit hours."

"Clock Hours" are the total number of actual hours per week a student spends attending class or other instructional activities that count toward completing a program of study. One (1) trimester credit hour is equal to at least 37.5 Clock Hours of instruction, including a minimum of 30 Clock Hours of classroom or direct faculty instruction. The remaining 7.5 Clock Hours may include acceptable and documented student work outside of class and / or instructional hours.

"Course Hours" are used to represent the 45 hours per credit hour (15 hours of direct instruction plus 30 additional hours) which can be converted to Clock Hours at a 6:5 ratio, often in the form of 10 minutes breaktime for each assigned hour, so that 45 Course Hours is equivalent to 37.5 Clock Hours. For SUM courses, both on the undergraduate and graduate (seminary) levels, on the typical SUM 11-week trimester schedule, our policy would entail that SUM 3-credit courses would include 4.1 Course Hours of direct instruction, plus 8.2 Course Hours of additional work per week, for a total of 12.4 Course Hours of total work per class, per week.

Faculty Qualifications

SUM utilizes technology to provide online instruction that is live and fully interactive with video. This online instruction removes the barriers of time and space so that qualified faculty with subject matter expertise can teach from wherever they can access the internet.

All faculty members are officially vetted by the Academic Office and approved by the Chief Academic Officer. A faculty member teaching at the bachelor's level must hold at least a master's degree or have extensive experience as a specialist in the course subject. Faculty who teach at the master's level must hold terminal degrees. Beyond these academic requirements, faculty are selected for their educational expertise, sound biblical theology, concern for students, and years of proven ministry experience.

The roster of current faculty and information concerning their qualifications may be found under the Directory section of this catalog.

Academic Freedom

The phrase "Academic Freedom" indicates the right of teachers and students to pursue truth without restriction of thought or doctrine. Academic freedom suggests the right of all persons to arrive at beliefs that they defend as truth. In practice, however, academic freedom is exercised within the limits of basic institutional commitments. Our institutional commitments can be found in our Mission Statement, Statement of Faith, and Foundational Principles that are published in the SUM [Academic Catalog](#). SUM is

distinctively Christian and Pentecostal; it is an Institution that finds its reason for being in the historic Christian faith, an heir to the broad body of theological truth encompassed by the entire Christian faith. SUM affirms a vital concern for the salvation of the world through the life, death, and resurrection of Jesus Christ, and through the continuing activity of the Holy Spirit, seeking the truth of Christ in the theological dialogue that surrounds the work of the Holy Spirit in our time.

SUM is an interdenominational institution, endeavoring to discern in its corporate life and teaching that which unites us all. Thus, the spirit in which SUM seeks truth is, in the words of John Wesley, “Unity in the essentials, diversity in non-essentials, and love in all things.” SUM Bible College and Theological Seminary is philosophically committed to the promotion of human excellence—spiritually, intellectually, physically, and socially—in a Christian environment. This concept is far from new. What is unusual about the concept as implemented at SUM, however, is its balance and integration into the curriculum. The achievement of wholeness and integration is sought; mere juxtaposition of parts is not sufficient. SUM acknowledges the Triune God: The Creator Father, the Lordship of His Son, and the guidance of the Holy Spirit. The charismatic (gifts of the Spirit) dimension is actively and clearly affirmed. Recognizing that Jesus Christ Himself is the Truth, SUM holds that freedom in a search for truth and its exposition is fundamental.

Academic freedom allows faculty members to present major scholarly and theological positions. While academic freedom demands a fair hearing of all positions, some are not necessarily consistent with the Institution’s mission. It is, however, beneficial for students to consider controversial issues in an environment of faith rather than to encounter them in an environment of doubt. Faculty members may present non-Christian ideas, practices, and worldviews with the understanding that they do so to present information, prepare students, and provoke thought and discussion, and without the assumption that the faculty members advocate those ideas, practices, and worldviews. All instructors sign their agreement with SUM’s Statement of Faith when they accept employment. Therefore, ideas, practices, and worldviews that are inconsistent with that Statement should not be affirmed by SUM faculty. Teachers shall have freedom in the classroom and through publications to discuss their subjects of expertise without harassment. Teachers shall be free to express and act upon their conscientious convictions in relation to their area of expertise but must realize that there is always a tacit representation of the institution in whatever is said or done.

All faculty members should realize that they are representatives of their chosen faith community and of this Institution, as well as of the learned profession, and, therefore, have special obligations. In a Christian College, the exercise of academic liberty involves responsibility to the Church, the philosophy of the Institution, and the academic community at large. Faculty members acknowledge that their profession and Institution may be judged by what they say and write. Therefore, they should at all times be accurate, exercise appropriate restraint, and show respect for the opinions of others, all within the framework of a dynamic Christ-centered worldview. Personal integrity would dictate that divergence from the Founding Vision and / or basic philosophy of SUM would lead the individual voluntarily to sever relationship with the College. Any faculty member who feels that academic freedom is being abridged may appeal through the grievance procedures stated in the “Grievance and Conflict Resolution Procedure.”

Grading Policies

SUM utilizes a Learning Management System to allow students to effectively receive and submit assignments. Typically, instructors / professors evaluate and comment on a student’s assignment within two (2) weeks of the submission. Final grades are reported to the Academic Office through the Student Information System within one (1) week after the trimester is completed.

All written and oral assignments are evaluated by a letter grade according to this system.

A+	Excellent	98 -100	B+	Very Good	88 - 89	C+	Above Average	78 - 79	D+	Below Average	68 – 69
A	Outstanding	92 - 97	B	Good	82 - 87	C	Average	77 - 72	D	Poor	62 – 67
A-	Outstanding	90 - 91	B-	Fairly Good	80 - 81	C-	Average	70 - 71	D-	Poor	60 – 61
									F	Fail	00 - 59

The grading system at SUM uses A, B, C, and D as passing grades. AU, CR, NCR, or W do not carry weight for calculating GPA (Grade Point Average).

AU	Audit	Does not carry grade points
IC	Incomplete	0.0 grade points per trimester hour
CR	Credit	Does not carry grade points
NCR	No Credit (Repeat Class)	Does not carry grade points
W	Withdraw	Does not carry grade points
WA	Withdrawal for absences	0.0 grade points per trimester hour
ADW	Administrative Withdrawal	0.0 grade points per trimester hour

An Incomplete (I) grade must be completed within two (2) weeks, or it becomes an F.

Credits transferred from other colleges determine course completion but are not calculated as part of a student's GPA at SUM.

Examinations

Mid-term and final examinations are administered every trimester. Other exams may be scheduled at the professor's discretion. In accordance with the Late Assignment Submission policy, make-up exams are not given without a physician's excuse, military service, or other extreme circumstance. If an exam has been missed, students must apply for an extension through the Chief Academic Officer's Office, including proper documentation. All approved make-up exams must be completed within one (1) week from the date of the missed exam. Any exam not made up within the specified time will receive a grade of "0" (zero).

Late Assignment Submission

Students may turn in work up to one week late at a 5% penalty per each day late. If the assignment is turned in 7 days late, their maximum grade for the assignment will be 65%. After 7 days the assignment will no longer be accepted and will receive a "zero" in the grade book. If a student has an extenuating circumstance that interferes with turning in work within this "one week" grace period, the student must submit an [Assignment Deadline Extension Appeal](#) to the professor. All work is due by the end of the course in week 11. No late work is accepted after the end of the course unless an incomplete is granted by the

academic department.

Incomplete Policy

If a student is unable to complete a course due to extenuating circumstances, then the student may apply for an Incomplete using the online [Academic Incomplete Request Form](#). An incomplete status allows the student to submit their missing assignments up to two (2) weeks after the end of the term. **The incomplete form must be submitted BEFORE the end of the term.** Any incomplete form that is submitted after the term will NOT be processed or accepted. Also, the incomplete form will not be accepted if your course grade is below “C” on all submitted work.

Extenuating circumstances may include but not limited to the following: Extreme illnesses, hospitalization, confinement to bed, circumstances beyond the student’s control such as prolonged power or internet outage or death in the family.

All submissions will be reviewed by the Academic Department, and once approved, the registrar will notify the student and the faculty of the results.

Grades: If any of the assignments are not submitted within 2 weeks after the term, the registrar will use the most current grade as noted in Canvas Course. So the final grade will be entered at the end of the 2 weeks for all incomplete courses. There will be no more changes after the 2-week period.

Change of Grade

In the event that an error in calculating or reporting a grade has been made, it is the student’s responsibility to notify the instructor. It is the student’s responsibility to retain all graded and returned assignments and exams until final grades are received. Students should contact the instructor immediately with any concerns. If warranted, the instructor will initiate a change of grade with the Academic Office. The deadline for a grade change request is six (6) weeks after the close of a trimester.

Repeating of Courses

A student may attempt to improve a grade in any course by repeating the course. Each grade is entered on the transcript and used for the appropriate trimester grade point average (GPA). However, in calculating the cumulative grade point average, only the highest grade is used, and the hours are counted only once. Courses repeated at other institutions may not be used to raise grades.

DR (Directed Research) Policy

Directed Research can be submitted by either graduating students or students who require a special course that is not offered during the given term. Graduating students do not require a letter of recommendation from their cohorts but all other students submitting a DR form must present a letter of recommendation from their cohort advisor. Please note that a \$300 Directed Research fee will be added to your tuition.

Also, a serious illness or other reasons extenuating circumstances, students may fill out the DR form and the course be reclassified as a DR course with the approval from the academic committee.

Only students who are filming as engagement students for all AA courses may submit the DR form and receive a full credit for the course after completing the final paper for the course. Other than engagement students, all students, including film editors must complete all given assignments to complete the course. The film editors or any students who are involved with filming AA courses, their DR fee will be waived.

* Canceled courses – Students requiring to take a DR due to canceled courses will not be responsible for the \$300 fee.

Dean's List

The Chief Academic Officer carefully and thoughtfully defines the criteria of the Dean's List for SUM to encourage high academic performance.

The criteria for the Dean's List are as follows:

- The student must be pursuing an undergraduate degree.
- The student must maintain full-time enrollment throughout the course of the trimester (i.e., not taking W's which lower a student's status below full-time, ten (10) credit hours).
- The student's term GPA must be 3.5 or higher on a 4.0 scale.
- The Dean's List rewards students based on the current term GPA rather than cumulative GPA to encourage students to seek to excel even if their performance in a previous term was not high.

Academic Dishonesty

Plagiarism and Cheating Policy

Plagiarism consists of (1) use of another's ideas without giving credit; (2) quoting material from published or unpublished works, whether purchased or copied, or oral presentations without giving proper citation; (3) paraphrasing published or unpublished material, written or oral, without proper citation; (4) copying another student's paper with or without that student's permission. Material, whether published or unpublished, purchased or copied from another writer must be identified by use of quotation marks or block quotation and documentation with specific citation of the source. Paraphrased material must likewise be attributed to the original author.

Cheating is engaging in dishonest behavior such as: (1) allowing another student to copy one's paper; (2) using unauthorized notes or material when taking an examination; (3) copying answers to examination questions; (4) engaging in securing unauthorized copies of examination questions (including aiding another person in doing so); (5) calling out answers to an exam. Students copying and submitting another person's class work and/or homework as their own or submitting assignments as having originated from themselves but has been performed by another person, are guilty of plagiarism—which is cheating.

Any student found to have committed academic dishonesty as defined in the Catalog will be handled in the following manner:

1. **First Instance of plagiarism or cheating:** If a student is found to have committed an instance of plagiarism but has not previously committed another case of plagiarism or a case of cheating, the Academic Committee will have the authority to give the student a warning and to instruct the reporting faculty member that the assignment is to be returned as unacceptable. The student may resubmit the assignment for a grade, but if they choose not to do so it will result in a grade of "0" (zero) for the assignment. Under this policy for an initial instance of plagiarism, the student must complete an instructional course with a corresponding quiz in Canvas before the next term, or the warning becomes a first instance of academic dishonesty.
2. **Second Instance of plagiarism or cheating:** Student receives grade of "0" (zero) for the assignment and cannot resubmit. Student is required to complete additional review of the Academic Dishonesty materials available in Canvas and submit a 3-page paper explaining academic dishonesty

in their own words and how they will avoid it in the future.

3. **Third Instance of plagiarism or cheating:** Student receives a grade of “ADW” in the course and cannot resubmit the assignment.
4. **Fourth Instance of plagiarism or cheating:** Student is administratively withdrawn (grade of “ADW”) from all current courses and suspended for one to three trimesters as determined by the Academic Department and approved by the Executive Team.
5. **Fifth Instance of plagiarism or cheating:** Student is administratively withdrawn (grade of “ADW”) from all current courses and expelled from SUM.

Examples of plagiarism:

- use of another’s ideas without giving credit; quoting material from published or unpublished works, whether purchased or copied, or oral presentations without giving proper citation;
- paraphrasing published or unpublished material, written or oral, without proper citation;
- copying another student’s paper with or without that student’s permission. SUM uses the turnitin.com service to check students’ work for potential plagiarism by comparing it against a broad text comparison database. Material, whether published or unpublished, purchased or copied from another writer, must be identified by use of quotation marks or block quotation and documentation with specific citation of the source. Paraphrased material must likewise be attributed to the original author.

Examples of cheating:

- Allowing another student to copy one’s paper;
- Using unauthorized notes or material when taking an examination;
- Copying answers to examination questions;
- Engaging in securing unauthorized copies of examination questions (including aiding another person in doing so);
- Copying and submitting another person’s class work and / or homework as your own.

Satisfactory Academic Progress (SAP)

Federal regulations specify that a student must be making progress towards an academic degree to receive financial aid. To remain eligible for federal, state, and institutional aid, a student must maintain “Satisfactory Academic Progress” as outlined in the following three measures:

- **Cumulative GPA (Qualitative Measure):** Undergraduate Students must reach a 2.0 minimum (equivalent to a C average) by the mid-point of the program and maintain this level throughout the rest of the program.
- **Pace of Completion (Quantitative Measure):** All students must complete at least 67% of their credits attempted each trimester. (Pace of Completion = Total credits completed / Total credits attempted)
- **Duration of Progress (Quantitative Measure):** Once a student has attempted 150% of the required

number of credits for a degree, that student is no longer eligible to receive financial aid. Federal regulations specify that “a student becomes ineligible when it becomes mathematically impossible to complete the program within 150% of its length.”

Grades, Cumulative GPA, and Pace of Completion

The only grades that meet SAP (Satisfactory Academic Performance) completion standards are grades for which credit is awarded; A, B, C, D, P and CR (credit). Grades of F (failure), W (withdrawal), and I (incomplete) are not passing grades, but they are included in the credits attempted. To maintain SAP, students need to meet the minimum Cumulative GPA for their program. Withdrawals, incomplete courses, repeated courses, non-credit remedial courses, and credits transferred from other colleges affect the Pace of Completion. Withdrawals lower the number of successfully completed credits. Incomplete (I) courses calculate like a withdrawal (W) and lower the number of successfully completed credits. Each repeat of a course counts as another attempt. Passing the course counts as one (1) completion. Credits transferred in from other colleges may help the Pace of Completion, as these credits are counted on a 1:1 ratio for credits completed and credits attempted.

Repeated Courses

Repeating and passing a failed or previously passed class will replace the previous grade to recalculate into the new Cumulative GPA. Both attempts will count toward the Pace of Completion and Duration of Progress. Students who pass a class (A, B, C, D) and choose to repeat it for a higher grade may receive financial aid only once (a total of two attempts) for that repeated class. Students may receive financial aid for a failed class (F) that they repeat until they pass.

Time Limits for Duration of Progress

Federal financial aid for all programs cannot exceed 150% of the total credits in the program, including credits that result from transfer credits and repeated courses. Students will not be eligible to receive aid after attempting the number of credits listed below:

AATM	96 credits
BABS	208.5 credits
BATM	186 credits
BAWM	186 credits
MACL	57 credits
MABS	72 credits
MDiv	114 credits

Pace of Completion

To determine the Pace of Completion, divide the cumulative credits successfully completed by the cumulative credits attempted. If this percentage stays at or above 67%, a student will complete degree requirements in the federally required time frame.

➤ **SAP Met:** Student has met or exceeded the minimum SAP requirements.

- **SAP Warning:** Student has not met one or more SAP requirements and was not on SAP Probation Status or SAP Suspension Status the previous trimester they attended. A student may only be in SAP Warning Status for one (1) trimester in a row.
- **SAP Probation:** Student was on SAP Warning Status the previous trimester attended, the student did not reach the minimum SAP program requirements, and successfully appealed the SAP Suspension Status.
- **SAP Suspension:** Student has not met the minimum SAP requirements while on SAP Probation Status the previously attempted trimester and is dismissed from the program.

Evaluation of Student Progress

Satisfactory Academic Progress will be reviewed at the end of each trimester: Fall, Winter, and Spring. At each review, a student's qualitative (cumulative GPA) and quantitative (Pace of Completion & Duration of Progress) progress will be evaluated. If a student is not making sufficient progress, as explained above, an **SAP Warning Notice** will be delivered to the student's SUM email address. If, at the end of the Warning trimester the student has not met all requirements, the student will be placed on **SAP Probation** and must appeal their status to remain in the program. If the student fails to appeal the SAP Probation status or fails to meet the requirements, the student will receive an **SAP Suspension Notice** and be dismissed from the program.

Appeals

In certain cases (illness, death in the family, special circumstance), a student may appeal the financial aid suspension and request reinstatement of financial aid eligibility by completing the [Financial Aid SAP Appeal](#) Form. Appeals should address the circumstances surrounding the student's insufficient progress and describe a plan of action to correct the insufficient progress. Students must specify what has changed in their circumstances that will allow them to make progress in the upcoming trimester. If the insufficient progress was related to Duration of Progress, the student must specify how many credits they intend to complete each trimester to complete the degree.

If the Appeal is approved, a probationary period of one (1) more trimester may be granted. In extreme cases, when one more trimester will not be sufficient to reach Satisfactory Academic Progress, the Financial Aid Committee, in cooperation with the Campus Pastor or Cohort Advisor, may create an Academic Plan for the student which specifies the academic requirements the student must meet and the deadline for when these requirements must be met. The Academic Plan will include, but may not be limited to, the following minimum requirements:

Academic Plans and Cumulative GPA

If a student is granted an Academic Plan regarding Cumulative GPA, the student must achieve the required minimum GPA (2.0 for undergraduate and 2.5 for graduate students) for all classes in the following trimester. If the required minimum GPA is not achieved in that trimester, the Academic Plan will be revoked, and the student's aid will be suspended again.

Academic Plans and Pace of Completion

Once granted an Academic Plan regarding Pace of Completion, a student must pass the lesser of 1) 100% of the attempted credits in the next trimester, or 2) a percentage that would bring the student up to the minimum SAP requirements. If the student does not complete the required percentage of the attempted credits in the following trimester, the Academic Plan will be revoked, and the student's aid will be suspended again.

Academic Plans and Duration of Progress

If granted an Academic Plan regarding Duration of Progress, a student will be expected to complete all credits that are listed in the Academic Plan. If any credits are not completed in the approved time frame, the Academic Plan will be revoked, and the student's aid will be suspended again. After the appeal is reviewed by the Financial Aid Committee, the student will be notified of the decision by email or mail. The review time for appeals may take up to three (3) weeks. At any point, if a student fails to meet the criteria outlined in the Plan, it will be considered void, and the student will not be eligible for financial aid for subsequent terms until a satisfactory point in the Plan has been reached that would allow the student to continue.

The Financial Aid Committee's decision is final. However, any questions regarding the process should be directed to the Chief Academic Officer at (916) 306-1628.

Reinstatement

Financial aid eligibility may or may not be reinstated at the discretion of the Financial Aid Committee. If an appeal is granted, the student will be placed on SAP Probation and financial aid eligibility will be reinstated for one (1) trimester. Specific criteria for moving off SAP Probation, as well as a student-specific timeline for meeting those criteria, will be outlined in the Official Decision section of the appeal form and

delivered to the student's SUM email address. The timeline will generally be the next trimester but can be extended if the Financial Aid Committee deems an Academic Plan is necessary. Failure to satisfy the requirements of the SAP Probation will result in immediate loss of financial aid eligibility for subsequent trimesters.

A student who fails to meet the requirements of the SAP Probation may submit a subsequent appeal for reinstatement by repeating the appeal process outlined above. Generally, a student will not be granted SAP Probation again until satisfactory progress has been achieved without any financial aid. Exceptions will be considered on a case-by-case basis.

NOTE: It is possible for a student to fail SAP (and not be eligible for financial aid) but not be academically dismissed from the school. In this situation, a student has successfully earned the right to completely pay for school out-of-pocket. SUM's Financial Aid SAP Policy, the Servant of All (SOA) Policy, and Academic Probation Policy are each different, and do not negate one another.

Please refer to the most recent copy of SUM's Academic Catalog for specific details on the Servant of All and Academic policies.

As the author of the third Gospel and the Acts of the Apostles, Luke has special interest in narrating the role of the Holy Spirit in the lives of the Apostles as well as the life of the early church. Luke primarily answers the questions of how the work of the Spirit relates to Christ; and how his pneumatology relates to the doctrine of the Trinity, prophecy, speaking in tongues, the spread of the good news, the growth of the church, church leadership, signs and wonders, unity and diversity, and the like. The course is organized around elements of research designs that cut across sub-disciplines: the logic of scientific inquiry; ethics; conceptualization and measurement; sampling and the selection of cases; and the relation between methods, data, and theory.

Students will complete several small projects that are tailored toward practical scholarly research preparation at the graduate level. These small projects will be presented in an interactive fashion for other students in the class to learn from one another.

This course is pre-requisite to LEA690 Capstone Project.

LEA 670 Christian Leadership Symposium - New Orleans (2 credits)

The SUM Graduate Research Symposium coincides with the SUM Evangelism Conference and Outreach each Spring trimester. Students conduct research on a selected topic in alignment with the decided symposium theme and present their research work to faculty, staff, members of the SUM and general

community, and their families and friends during the symposium days. Each year, members of the faculty will decide on a leadership theme.

LEA 690 Leadership Capstone Project

Prerequisites: LEA500 Research Methods and LEA600 Leadership Research Design

This will be the Capstone of the student's work here at SUM. The goal is for the student to identify a project that they can become involved in that will impact society with the Gospel in a genuinely life-changing way— both for them and for those to whom they are / will be sent to minister. In this course the student will present their CSP draft and final Capstone Project. This Capstone Project will take the place of a Master's Thesis.

MDV 601 Master of Divinity Project Design (2 Credits)

This is a preliminary research course for the MDIV students (the catalog year of 2020-21). This course has been designed to help students develop the Capstone Project. The student will consider the biblical and theological foundations, identification of the practical ministry needs that the project addresses, any ethical or evangelistic considerations, and the methodology for writing and implementing the project.

MDV 605 Master of Divinity Project Design (3 Credits)

The MDIV Project Design is for the student to develop his or her Capstone Project. The student will consider the biblical and theological foundations, identification of the practical ministry needs that the project addresses, any ethical or evangelistic considerations, and the methodology for writing and implementing the project.

MDV 650 Master of Divinity Symposium Presentation

The MDIV Symposium Presentation is the culmination of the Capstone Project. The student will explain the development of the project, biblical and theological foundations, ethical and evangelistic considerations, the results from the implementation of the project, and the personal development of the student as he or she reflects on their MDIV and project experiences.

MDV 699 Master of Divinity Capstone Project

The MDIV Capstone Project is for the student to identify a project with which they may design, develop, write, and implement that will make a tangible impact for the Gospel. The project should be the culmination of work from the Project Design seminar. The student will give the biblical and theological foundation; explanation of the tangible, practical needs for the project; exploration of any ethical and evangelistic issues; and give the practical implications and impact of the project.

Systematic Theology

(Unless otherwise noted, all courses are worth 3 credits.)

PHIL5213 Christian Apologetics

A course designed to equip the student to defend the Christian faith against relevant contemporary assaults and to build a positive Christian world and life view. Appeal is made not only to the varieties of rational arguments but also to the special contributions of the Pentecostal message. Emphasis is placed on conversational approaches to engaging individuals of divergent beliefs with the Gospel message.

THE 501 Pentecostal Theology and History*

This course explores Pentecostal theology and the history of Pentecostalism with its attendant theological ideas and movements. Core doctrinal and theological issues are covered as a seminary-level introduction to Christian theology with attention given to historical background and sources.

*This course can satisfy the course requirement of BIB 115 and MIN 171 from Berean/Global University for the Assemblies of God ministerial credentials.

THE 601 Systematic Theology I: God, Humanity, and Salvation

This course examines theological prolegomena and methodology, revelation, God and His attributes, humanity, hamartiology, and anthropology. Emphasis is given to the development of theological method from a Pentecostal perspective within the orthodox doctrines of Christianity.

THE 602 Systematic Theology II: Church, Spirit, and Mission

This course examines the person and work of Christ as it relates to the nature of the person of Christ and His work on the Cross. The course also examines ecclesiology from a Pentecostal perspective and how the church is empowered by the Holy Spirit.

THE 650 Contemporary Theology

Contemporary Theology explores themes in Christian theology that are relevant or challenging to today's church and ministry. Theological development of the modern and postmodern periods is examined to understand the influence on contemporary issues. Specific theological themes may be emphasized and studied during iterations of the class.

THEO6123 Systematic Theology: The King and His Kingdom

Students will examine the person and work of Christ, giving special attention to the biblical witness, historical development from the patristic period to the post-enlightenment era, and renewal perspectives. Of particular importance will be the relationship of Christology to both pneumatology and the biblical theme of the Kingdom of God. Implications for contemporary life and ministry will be discussed.

THEO6133 Systematic Theology: God in Contemporary Thought

On a near daily basis, Christians interface with secular people. Increasingly, contemporary thought configures images of deity in copious ways. In depth consideration of God in contemporary thought considers how theological precepts interface with unbelievers in a variety of ways, such as the new atheism, new agnosticism, and secularism. The conversation between science and religion will also be considered from a theological vantage point. A variety of other religious views will also be considered from a Christian view.

THEO6143 Systematic Theology: Kingdom Empowerment

Students will examine the person and work of Christ, giving special attention to the biblical witness, historical development from the patristic period to the post-enlightenment era, and renewal perspectives. Of particular importance will be the relationship of Christology to both pneumatology and the biblical theme of the Kingdom of God. Implications for contemporary life and ministry will be discussed.

THEO6153 Systematic Theology: The Church in Cultures

This course will focus on theological reflection toward the development of an ecclesiology through the lenses of the universal and timeless principles of Scripture, the Pentecostal-Charismatic tradition, and the divergent and rapidly changing cultures of the world. Students will connect ecclesiology with the process of developing effective strategies for the fivefold ministry. Attention will be given to the process of de-contextualizing the principles of Scripture from their historic settings and re-contextualizing them into

contemporary settings with the goal of experiencing successful ministry that is both effective and biblical.

THEO6163 Systematic Theology: Kingdom and Eschatology

Students will explore the biblical concept of the Kingdom of God, particularly as this concept emerges and develops in the Old Testament and Second Temple Judaism, the ministry of Jesus, and the New Testament writings. Special attention will be given to the tension between the “already” and the “not yet” aspects of God’s Kingdom as offering a framework for Christian life and ministry. The biblical emphasis in eschatology on orienting a believer’s life toward eternity will take preeminence over timeline issues.

Theology and Ministry in Cultural Contexts

(Unless otherwise noted, all courses are worth 3 credits.)

CUL 501 Ministry & Culture in Pentecostal Perspective

The purpose of this course is to cultivate recognition of signs in the culture, and to re-frame Jesus’ and the Spirit’s presence in the church and the world. This course will challenge participants to not only identify their target culture, but to also initiate creative ways of evangelism and mission to impact their culture for the Kingdom of God.

CUL 502 Ministry Adaptation in a Multi-Cultural Setting

The twenty-first century is highly multi-cultural, and churches are increasingly faced with how to adapt mission and ministry to reach the society around them. Attention will be given to gaining understanding of the cultures present in the participants setting and adapting church ministries and structures to engage those cultures.

CUL 503 Ministry in Postmodern Cultures

As the twenty-first century is still attempting to identify and minister to the post-modern thinker, post-postmodernism is arising. Attention will be given in this course to define the way each culture thinks, the evolution of these cultures, and how to engage these mindsets with a ministry that will foster Spirit-formation.

CUL 550 Theology and Culture

This course examines how theology engages the ever-changing culture of society. Theological themes are chosen for each iteration of the course being offered with specific application to a particular area of culture. Students are taught to integrate various disciplines into their theological study. Students are also taught to exegete the culture and then align theological applications to the mission of the church. Certain themes may be chosen and studied during each iteration of the class.

CUL 601 Theological Ethics and Culture

Spirituality and Ethics examines the issues of how spirituality and ethics influence the life of the minister. Students examine spiritual discipline models and how they influence the development of the minister to have a balanced, holistic view of life. The perils and pitfalls of the minister are studied with solution-focused applications offered.

Federal Educational Rights and Privacy Act (FERPA)

SUM is subject to the provisions of the federal law known as the Family Educational Rights and Privacy Act (FERPA). This Act guarantees students', parents', and guardians' access to certain educational records and restricts the College in the release and disclosure of those records to third parties. The College releases no information to third parties except as noted below or upon receipt of an original signed request by the student. The College accords all the rights under the law to students who are declared independent.

Educational records are kept by the College to facilitate the educational development of students. The law defines education records as: "Educational records are those records which: (1) are directly related to a student, and (2) are maintained by an educational agency or institution." Faculty and staff members may also keep informal records relating to their functional responsibilities with individual students.

The Act provides that information may be released to personnel within the institution, to officials of other institutions at which the student wishes to enroll, to persons or organizations providing student financial aid, to accrediting agencies carrying out their function, in compliance with a judicial order, and to persons in an emergency to protect the health and safety of students or others. All SUM students are asked to sign a FERPA Agreement with SUM upon enrolling in the College, which indicates whether the student permits the College to give out directory information about a student's attendance and graduation.

For more information concerning FERPA, please visit:

<http://www.ed.gov/policy/gen/guid/fpco/ferpa/index.html> or call (202) 260-3887.

Student Privacy Rights

Students at SUM have the right to examine their school records, such as high school or college transcripts, SAT scores, and their academic record at SUM. The College annually informs students of the Family Educational Rights and Privacy Act (FERPA), which affords students certain rights with respect to their education records. Student FERPA rights include:

- 1) The right to know what records are kept, under whose jurisdiction, and for what period of time.

- a) The right to inspect and review education records within forty-five (45) days of the day the College receives a request for access. Applicants for admission and those denied admission do not have access rights.
 - i) The student should submit the Records Request Form. The Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected. If the Registrar does not maintain the records, that official shall advise the student of the correct official to whom the request should be addressed.
- 2) The right to request an amendment of the education records that the student believes is inaccurate or misleading. When seeking an amendment, the student should write to the College official responsible for the record and clearly identify the part of the record that needs to be amended, specifying why it is inaccurate or misleading. If the College decides not to amend the record as requested, the College will notify the student of the decision and advise the student of the right to a hearing regarding the amendment request. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
- 3) The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.
 - a) One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests.
